Talk About Heavy Lifting – TerpSys Lends a Strong Set of Hands

PTFC has so many wonderful supporters, and we thought we had seen it all. We've always said each individual tab counts and they add up. Well they had added up and we had over 550 pounds of tabs – but how to get them to the recycler? TerpSys to the rescue. TerpSys has a motto: “Technology Driven. People Oriented.” Thanks to Bobby Chang, Craig Bozman and Phil Clark at TerpSys all those tabs are now doing their work. You have to love a company that makes service to its community one of its primary purposes and PTFC, like so many other charities in this area, is blessed to have TerpSys as a supporter. We are all better off because Phil, Bobby, Craig and the whole TerpSys team cares. And to give you an idea of what caring is:

So if you ever doubt that individual tabs don't add up, now you know they do and thanks to TerpSys and its people, they can make our lives and world a slightly better place.
